

Spanish Immersion Program

The Merit School of Gainesville is proud to offer our exclusive Spanish Immersion Montessori Program for children between the ages of three to five. Following the Montessori principles, the children will begin to better understand and appreciate the diversity of other cultures. Our program is taught in both English and Spanish, providing the opportunity for the children to learn Spanish conversationally by interacting with each other, rather than memorizing vocabulary words. Singing educational songs in Spanish helps to reinforce what they have learned. The Spanish Immersion Program at The Merit School of Gainesville aims to develop a sense of diversity and respect to build supportive skills that will benefit them for life.

Spanish Immersion Montessori helps young children build a strong foundation in themselves and their education while being introduced to Spanish. Following the Montessori principles, the program also helps them understand the diversity of other cultures. The program focuses learning beyond simply memorizing vocabulary words: they learn it conversationally by interacting with each other, lessons delivered in both English/Spanish, and through educational songs that reinforce their learning.
